ANY ROAD CONDITION - WE HAVE THE SOLUTION

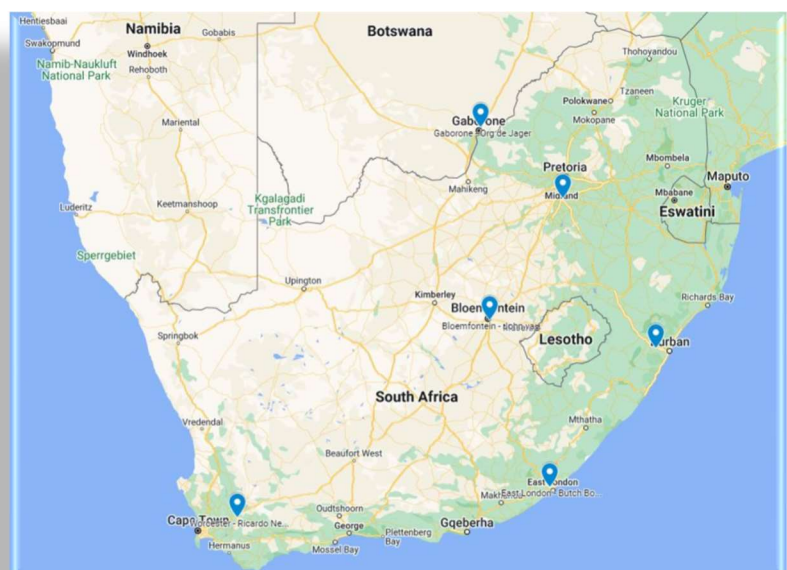

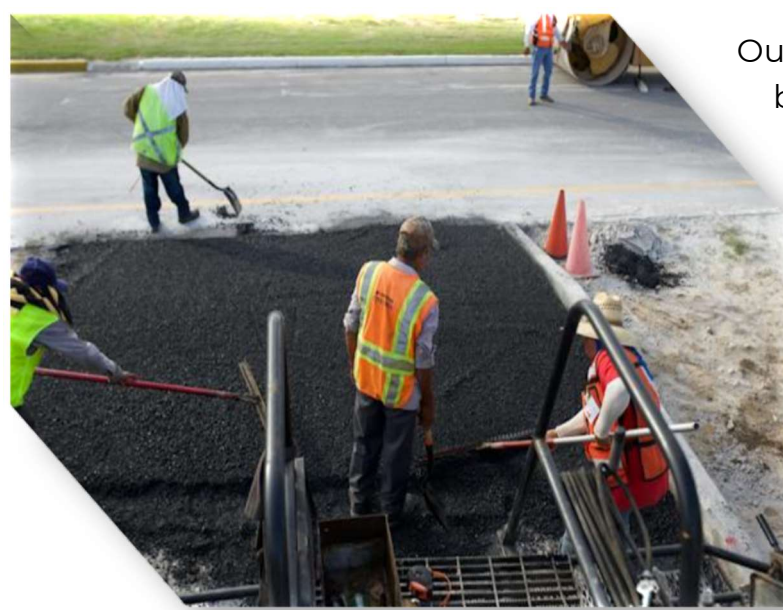

Who We Are?

At Pothole Asphalt Distributors, we are driven by a commitment to client satisfaction, approaching each project with unwavering enthusiasm and meticulous attention to detail, regardless of its scale. With a team comprised of seasoned industry professionals boasting over 25 years of experience, we take immense pride in delivering top-notch workmanship without compromise.

What We Do?

Operating across the greater South African regions and SADIC countries, we specialize in establishing new access roads in both urban and rural areas, contributing to the development of communities. Moreover, we actively participate in stimulating the economy by providing job opportunities and offering training programs.

Our community involvement extends beyond our core operations, as we engage with various stakeholders including churches, shopping centers, neighborhood associations, government bodies, and non-profit organizations. Through collaborative efforts, we strive to make a meaningful impact and foster positive change in the communities we serve.

*"Any Road Condition –
We have the Solution."*

Our Team

Our team comprises of professionals with extensive experience in civil engineering, project management, and road construction, supported by CIDB level 8 grading. We specialize in utilizing Everzyme for road stabilization, successfully implementing it in multiple projects.

We also bring over 41 years of experience in road construction, having managed projects in various challenging environments. Our team also includes skilled business leaders with expertise in project and senior management, as well as accomplished entrepreneurs with over 15 years of experience in retailing and supply chain management and supplying of industrial equipment.

Together we possess a comprehensive skill set and a track record of successful project management, ensuring high quality infrastructure projects.

Where & How We're Different!

With a track record across South Africa for supplying, building, maintaining, and repairing:

- APS Gold (a pothole mix that is a durable repair solution for exterior asphalt that is ready for traffic immediately after the repair)
- APS Rejuvenate – Restore & protect your tarred roads
- Secondary roads and residential developments
- Residential, commercial and industrial paving (15-year guarantee)
- Biochemical Soil Stabilizer: WSA14
- Provincial roads
- Rural roads
- Haul roads (Agriculture, mining & forestry)
- Parking areas / Shopping centers
- Airport runways
- Game parks / Private resorts
- Road shoulders
- Gravel Roads
- Sport and recreation surfaces/paths
- Rejuvenating Crack filler
- New generations speed bumps
- Road safety gear and related tools
- Revolutionary method for fixing of sink holes
- Dust Suppression

Our business approach and values are centered around client satisfaction, undertaking each project with great enthusiasm and attention to detail, irrespective of the size of the project.

Elevating Service Excellence: Where Professionalism Meets User-Friendliness.

Welcome to Padrepairs, where our dedication to professionalism and user-friendliness is paramount. We are deeply committed to delivering top-tier services while prioritizing the needs of our customers. Beyond mere infrastructure repairs, we actively involve communities, striving to enhance their well-being and prosperity through our initiatives.

Community Involvement & Job Creation:

Recognizing the integral role communities play in our success, we are dedicated to involving them in our projects. By fostering collaboration and open communication, we not only address infrastructure issues but also strive to uplift the communities we serve. Through our initiatives, we aim to create sustainable job opportunities, empowering individuals to contribute to the betterment of their neighbourhoods.

Sponsorships and NPO Collaborations:

Padrepairs understands the importance of partnerships in achieving shared goals. We welcome sponsorships from businesses and individuals who align with our vision for safer, well-maintained infrastructure. Additionally, our commitment extends to collaborating with Non-Profit Organizations (NPOs) that share our passion for community development and road safety. Through strategic partnerships, we can amplify our impact and work towards creating lasting positive change.
